No :4,New Perungalathur, Chennai,600063

## SUMMARY

Ambitious student with a burning passion for **Full Stack Web Development**, equipped with a solid grasp of front-end and back-end technologies. Eager to dive into real-world projects, innovate, and collaborate with teams to craft captivating digital experiences. A proactive learner committed to staying ahead in the dynamic world of web development, poised to make a significant impact in the industry.

## EDUCATION

### Sri Sairam Engineering College

Department of computer science engineering  
Expected May 2026 | CGPA 8.48/10.0

### A.R.R matric Higher,secondary School

**Centum scorer** in Computer Science,  
Grad May 2022 | Avg : 92.48%

## SKILLS

- C Programming
- Python
- Java
- **Frontend:**
  - React Js
  - Next Js
  - Tailwind
- **Backend:**
  - Express
  - Firebase and Appwrite
- **Database:**
  - MongoDB
  - Mysql
- **App Development:**
  - React Native
  - Flutter

## ACHIEVEMENT

- **Problem Solving Expertise:**
  - Solved 2500+ problems on SkillRack, demonstrating a strong grasp of problem-solving and algorithmic thinking.
  - Solved 80+ problems on LeetCode, showcasing proficiency in data structures and algorithms.
- **Competitions and Hackathons:**
  - Participated in the **TNSkill Web Development** Contest and advanced to the second round, exhibiting exceptional web development skills.
  - Achieved Runner-Up position in the **SRCAS National Level Technical Hackathon**, Coimbatore, showcasing innovative solutions and teamwork.

## PROJECTS

### • Weather App:

Built a responsive weather app using React.js and OpenWeather API to display real-time weather conditions. Improved skills in API integration and dynamic UI updates.

[https://github.com/mohamedshafid/weather\\_app](https://github.com/mohamedshafid/weather_app)

### • Food Delivery App:

Developed a food delivery app using React.js, MongoDB, and Stripe, featuring a seamless ordering system with secure payments. Used Context API for efficient state management and dynamic UI updates.

[https://github.com/mohamedshafid/food\\_delivery](https://github.com/mohamedshafid/food_delivery)

### • Mental Support Chatbot:

Created a mental health support chatbot for students using Gemini AI via Google AI Studio, integrated with React for the frontend and Flask for the backend. Ensured empathetic, personalized interactions with seamless communication between components.

### • Vendors Management (Ongoing)

A platform connecting manufacturers with vendors to streamline the procurement process.

- Features include vendor details, ratings, and delivery integration with Porter.
- Tech Stack: Mobile app, database management

## EXPERIENCE

### • Web Development Intern

OneYes Infotech Solution, Chennai

**June 5, 2024 – July 4, 2024**

- Collaborated with a team to design responsive layouts and implement interactive features for client projects.

### • Volunteer Experience

DevFest Chennai 2024, IIT Research Park, Chennai

**October 2024**

- Actively contributed as a volunteer during the DevFest event, assisting in organizing workshops, networking sessions, and technical discussions.
- Gained valuable exposure to cutting-edge technologies and enhanced teamwork and event management skills in a tech-driven environment.
